

→ Manual ramp for vans, trucks, trailers and semi-trailers

## DH-AM.25 • 1000-2500 kg

The DH-AM is a **light weight yet robust manual ramp**, equipped with a full aluminium platform. The opening and closing of the platform is reinforced by powerful torsion springs, invisibly incorporated in the platform articulation points. The platform is mechanically locked on the left and right sides.

The DH-AM can be mounted at the rear or at the side doors of a wide variety of commercial vehicles. On factory built panel vans, the DH-AM can be supplied as a body kit replacing the rear vehicle doors (option OAT200).

This manual ramp can be used for a wide array of different applications, and forms a light-weight and simplified alternative for hydraulically driven ramps or genuine tail lifts.
